2024-2025

This year's 5 Year Plan submission calendar for April 2025 was delayed. Listed below are the reasons and then there is a summary of what is being done to get the paperwork submitted for July 1, 2025, when the new HOTMA regulations become effective.

1-HOTMA was developed in 2016 by HUD and was to start in January 2024 to assist with the administration of various programs that subsidize a tenant's rent or an apartment's rent. It includes substantive changes to the calculation of income, assets, and other quite comprehensive factors that affect the administration of several HUD programs.

2-Trainings were given and as they were producing voluminous amounts of information for PHAs to learn. HUD was changing some of the requirements, aspects had to be adapted for each type of program. Both mandatory and discretionary aspects were so confusing HUD decided to delay implementation to January 1, 2025.

3-The VGHA as a PHA was required to submit the new 5 Year Plan for April 2025. However, we were told to speed up the process, in the late summer, for the January date. We rushed to complete the Admin Plan (the most essential part of the PHA plan) and did so in September 2024, with all the required changes, but with a couple of minor revisions to discuss.

4-In early October the VGHA was notified by HUD there would be a delay again in the deadline. HUD did not know at that time how long the delay would be, but stated neither the HUD software nor new documents were ready for the changeover in January. Additionally, housing specific software companies were not given enough time to write new code for the HOTMA changes. Therefore, HUD instructed that PHAs should keep implementing the HCV program under their current Plans.

5-Given that, we asked for an extension to deal with the extensive paperwork, as we were still using the regulations that were in effect. No new deadline was given as HUD was still not ready to change over. (Ping email)

6- Shortly thereafter, HUD notified all PHAs that July 1, 2025 was the new starting implementation date target.

7- We have received no further updates from HUD (except on funding projections through the year), but will be finalizing all the additional forms and attachments for submission to move ahead with the July 1st start date for HOTMA.
